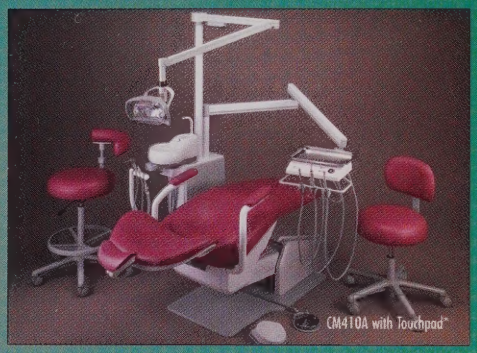
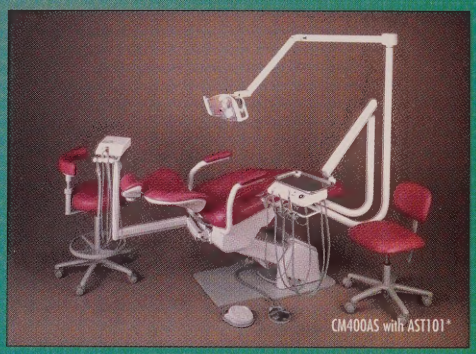
THE TRADITION CONTINUES

RECOGNIZED VALUE - AFFORDABLE QUALITY





The tradition began in 1971 when Anton Simor responded to your professional requirements for more innovative dental controls. By committing itself to design and value leadership, the business which has evolved into today's Dentech Corporation has supplied more than 50,000 operatory units to dental professionals around the world.

Dentech leads the industry with aseptic, seamless control head covers; the "SensorTouch" activation system; an under-toeboard pivoting system for chair mounted units; a multi-point pivoting linkage for dental patient chairs; and exhaust air filter mufflers on control heads. We are proud of our history and are excited by our future.

1-800-826-5004

* All units shown with Ultima 2 Chair ** All Ultima 2 Chairs come with infra-red foot control

AN ASH TEMPLE COMPANY

NOV 2 7 1996

What's so distinctive about Ash Temple service?

At Ash Temple, we recognize that when you need supplies, or your equipment malfunctions, you can't afford to wait. You need fast, efficient response.

That's why it's good to know you can rely on the people at Ash Temple.

Ash Temple's team of experts is composed of people who combine seasoned experience with the latest knowledge of industry developments.

Our service commitment is a combination of three important elements:

- An outstanding dedication to promptness and efficiency on the part of all our staff from coast-to-coast.
- A distribution infrastructure devoted to providing consistent reliability with high order fill rates unrivalled in Canada.
- An enviable reputation earned over years of service to the Canadian dental profession.

Ash Temple can provide the service you require from within your community.

Call us. We're there when you need us.

Ash Temple LIMITED

Keeping you a step ahead.

John T. Adamski, V.P. & Toronto Branch Mgr. with Ash Temple 18 years.

Connie Runions, C.A., Controller 7 years with Ash Temple.

SCOTIA
PROFESSIONAL PLAN

TIME IS MONEY.

When it comes to managing your professional practice, you know that time is money. That's why Scotia Professional® Plan for Dentists was designed.

In one account you will find all the services required to borrow, invest and complete your daily banking transactions. You never need to move funds to pay loans or earn preferred interest rates. We do it for you. And it saves money with loans as low as prime*, preferred interest rates paid on surplus funds, overdraft protection, a ScotiaGold® VISA** card, as well as personal banking privileges like mortgage, loan, and RRSP term investments at preferred rates. All of this for a low monthly fee.

Perhaps most important, a Scotiabank manager specially trained in the needs of the dental profession will help you set up the account.

For more information, contact your local Scotiabank branch.

Our Academy

The ACADEMY OF DENTISTRY, formerly the Toronto Dental Society, has been functioning continuously since 1890. It has provided leadership and service to both the profession and the community, and will continue to do so in the future.

The OBJECTS of the Academy are:

1. Advancement of the art and science of dentistry.
2. To promote the highest ideals of dental practice.
3. Cultivation of harmony and good fellowship among its Fellows, and among the members of the dental profession generally.

Some of the specific services provided are as follows:

1. The Annual WINTER CLINIC.
2. After hours EMERGENCY TREATMENT service for the public.
3. The Annual WINTER CLINIC/INFORMATION BOOK, a directory of dental organizations.
4. PUBLIC RELATIONS, an experienced staff person to answer the public's queries and complaints.
5. An ELECTED COUNCIL, representing all Metro Toronto dentists and their local component societies.
6. CO-ORDINATION of dental and fellowship functions within Metro Toronto.
7. DENTAL MEETINGS with excellent programs and clinicians.
8. Assistance in formation of new STUDY GROUPS.
9. HONOURARY LIFE MEMBERSHIP to recognize outstanding dentists.
10. Fellowship activities such as the Annual GOLF TOURNAMENT, CURLING BONSPIEL and SKI DAY.
11. MEDIATION SERVICES for the public.
12. COMMUNICATION with dental auxiliary organizations.
13. Provides an ASSOCIATE PLACEMENT service.

This is our Academy.
Keep it strong. Support it, enjoy it.

Welcome to the 59th Annual Winter Clinic

Dentistry, The Next Generation – For Today's and Tomorrow's Dental Professional is the theme of this year's Winter Clinic and promises to be a meeting of excellence and diversity in education and fellowship. We also offer you the opportunity to take in the latest in dental equipment, supplies and services on the Exhibit Floor.

We as a profession must always keep current with the changes, trends and new practices that affect ourselves, our staff and most importantly, our patients. This year's clinical program will provide the most recent presentations on everything from the dental disciplines to the Internet, Nutrition and Parenting – there **is** something for every member of your dental team.

NEW THIS YEAR! In the afternoon visit the Dental Marché located in the middle of the Halls of Exhibits. It will feature a Manufacturers Marketplace, Student Table Clinics and Alternative Medicine Presentations.

At lunch it will be the pleasure of the Academy of Dentistry to present its Honourary Life Membership to Dr. Gilbert Chapnick, who has made significant contributions both to his profession and to The Toronto Academy of Dentistry.

The new format of this Winter Clinic Book will allow you to easily access speakers, exhibitors and information on all the events of the meeting. **Keep the book** because after the Winter Clinic you can still use it for study club and dental society listings and useful material about upcoming Academy events and functions.

Your Winter Clinic Committee has worked diligently to provide you with this special one day clinic. We would like to thank the ODNAA, ODHA and Dental Industry Association for their input and participation in the planning of our meeting.

Take advantage of everything that is being offered and we hope you come away from the Winter Clinic with a brief look into **Dentistry – The Next Generation.**

Greetings

Kaarla Jensen
CDA/CDR
ODN&AA Provincial President

Greetings from the Ontario Dental Nurses and Assistants Association

Each November, the Toronto Academy of Dentistry welcomes all dental team members to Toronto to participate in the Annual Winter Clinic. We are fortunate to have this excellent opportunity to continue our professional development, research existing and new products/equipment and network with our colleagues.

On behalf of the Ontario Dental Nurses and Assistants Association, it is my pleasure to welcome you to Winter Clinic, '96. I encourage you to participate in today's programs and return to your office tomorrow renewed and refreshed to meet your patients' needs.

I look forward to meeting the ODN&AA Members – see you at the Registration desk for your Credit Hour / Point Verification.

Kaarla Jensen, CDA/CDR
ODN&AA Provincial President

Cheryl Cancelli
President

Welcome from the Ontario Dental Hygienists' Association

Welcome to the 59th Annual Academy of Dentistry's Winter Clinic.

Winter Clinic presents us with a unique opportunity for professional development. This one day meeting offers many outstanding courses to suit a variety of interests and needs. In addition, you may socialize and network with your dental colleagues and view the latest in equipment and products. I look forward to sharing the day with you and urge you to take advantage of this dynamic program of speakers so that we may continue to provide the highest quality care to our clients.

On behalf of the ODHA members, I wish to thank the Academy, Raisyl Wagman, Pat McCance and our Winter Clinic Official Representative, Barbara Greenglass for planning and providing an interesting and informative program.

Cheryl Cancelli,
President

Greetings from the DIAC

Cy Elborne
President

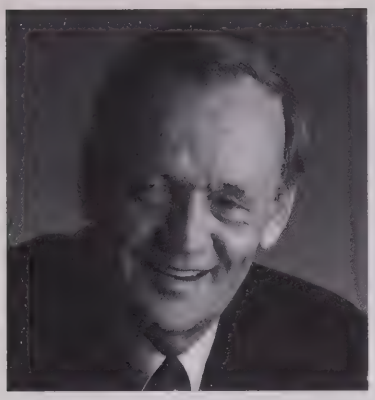
On behalf of the Dental Industry Association of Canada I welcome you to the 59th Annual Winter Clinic. As exhibitors and partners we want to make every opportunity available to you to obtain first hand information directly from our member companies.

Winter Clinic is traditionally a special meeting, allowing you a focused educational experience with excellent speakers from all fields of dentistry. DIAC gratefully recognizes the diligent effort of the Winter Clinic Committee composed of members of the profession, ODNAA, ODHA, ARDT and DIAC.

For 1996, the Dental Marché, loacted in the middle of the Exhibit Hall will provide delegates with a new venue for learning and information. Don't miss it!

DIAC members are anxious to extend you a warm welcome to the expanded Exhibit floor. We are pleased to offer the most current information on dental products, equipment, new technologies, and services. The exhibit hours are from 10:00 in the morning until 7:00 in the evening. We look forward to seeing you.

Enjoy another great day at the Winter Clinic.



CANADA

PRIME MINISTER · PREMIER MINISTRE

It is with great pleasure that I extend my warmest greetings to everyone attending the Toronto Academy of Dentistry's convention and trade show, ***The Winter Clinic****.*

This annual event offers you the opportunity to exchange views and discuss issues of mutual concern with fellow professionals, while at the same time providing you with insights into new technologies, products and services. I am sure that you will find your participation in the clinic rewarding, reiterating as it does your commitment to excellence in dental care.

Please accept my best wishes for a most productive session of activities.

Greetings from the Premier of Ontario

The Toronto Academy of Dentistry

It's my pleasure to extend greetings to the participants and organizers of the Toronto Academy of Dentistry's 59th Winter Clinic.

It takes a great deal of time and energy to organize a meeting of this size and scope, and I congratulate everyone who helped make it happen.

The Winter Clinic provides an excellent opportunity for all dental professionals – dentists, dental nurses and assistants, and dental hygienists – to come together and share knowledge and expertise so that they may better serve the public. The dental profession offers an important healing art to Ontarians and am pleased so many have taken time to participate in the Winter Clinic.

I salute your achievements and send my best wishes for a successful Clinic!

Dear Friends,

On behalf of my colleagues on City Council, it is a pleasure to send greetings to the dental professionals attending the **Winter Clinic.** We are delighted that dentists, dental nurses and assistants, dental hygienists and exhibitors from across Ontario are gathering in Toronto for this one-day continuing education convention.

The people who call Toronto home come from all around the world. They have chosen to live here and contribute to this truly unique city. The special qualities different people bring to our city make Toronto a lively and vibrant place to visit and a wonderful place to live.

Whether you are a frequent or first-time visitor to our city, please enjoy the distinctive atmosphere and the many exceptional attractions Toronto has to offer.

Best wishes for a successful convention and a pleasant stay in our city.

Yours truly,

Barbara Hall

Mayor

Fill 'er Up

Bioplant HTR®-24 Synthetic Bone. The Replacement Therapy That's Osteopromotive.

When you take something out, you should put something back.

Now there's something you can do that's quick and easy to prevent the chain reaction which begins when a tooth is extracted and the socket is left unfilled. To prevent possible bone loss, shifting of adjacent teeth and periodontal disease, you should fill that socket with Bioplant HTR-24.

Replacement Therapy preserves the alveolar ridge for future prosthetic treatment.

With a simple procedure, you can prevent the 40-60% bone loss that would normally occur. Bioplant HTR-24 consists of non-resorbable, negatively charged granules which are uniquely designed to promote bone growth.

With Bioplant HTR-24, you can help to maintain the health of your patient's surrounding teeth and gingiva, plus you'll be taking an important first step towards future restoration.

Bioplant HTR-24 should be a regular last step for any tooth extraction.

In addition to it's osteopromotive qualities, Bioplant HTR-24 is hydrophilic which helps support the blood clot and reduce the risk of dry socket. Clinical results are excellent and the procedure is usually covered by most insurance plans. The ultimate result is happier patients and a healthier practice.

For more information or to order Bioplant HTR-24, call your dental dealer or Septodont at 1-800-872-8305 or 1-800-647-0643 in Canada.

Dental Marché – *Halls of Exhibits A and B*

5:30 p.m. - 7:00 p.m.
Light Dinner on Exhibit Floor

Exhibits will be open in from 10:00 a.m. - 7:00 p.m.

HONOURARY LIFE MEMBERSHIP
Gilbert Chapnick, D.D.S.

Gilbert Chapnick, D.D.S.

Dr. Gilbert Chapnick has been chosen as the 1996 recipient of the Toronto Academy of Dentistry's highest honour, The Honourary Life Membership.

Born, raised and educated in Toronto, Gil went on to graduation from the Faculty of Dentistry, University of Toronto in 1944. He began his distinguished career of service by joining the Alpha Omega Dental Fraternity and held offices in the undergraduate Pi Chapter including a term as President. Graduation was followed by three years of service as a Captain in the Royal Canadian Dental Corps.

After retirement from the Army he entered into private practice in Toronto where he soon demonstrated his concern for community service by volunteering for a position on the dental staff of the original Mt. Sinai Hospital on Yorkville Avenue, attaining the rank of Senior Attending in the unique service which, at its peak had over 75 dentists contributing volunteer clinic time for local indigent people. Gil participated in this programme for 25 years.

His involvement with Alpha Omega continued with Gil holding various offices including a year of presidency of the Toronto Alumni Chapter. Gil also participated in a programme which aided the retraining of immigrant dentists. Gil further distinguished himself serving the dental profession in his involvement with The Ontario Dental Association's Mediation Programme. He served on the North Toronto Dental Society's Mediation Committee as Chairman and presently is the Co-ordinator of the Mediation Committee of the Four Toronto Societies, administered by the Academy of Dentistry, a position he has held for the past 15 years. Gil was a key member of a committee which wrote the Mediation Manual of the ODA which is in use across the province. He also has been consultant to the Toronto Regional Geriatric Board and participates in the University of Toronto community dental programme dealing with office visits by dental students.

Gil was an active canvasser for the United Way and the United Jewish Appeal and recently received the "Golden Giver" certificate for his many years of generosity. He is the recipient of the Alpha Omega, Toronto Alumni Chapter, Achievement Award. Gil holds 50 year Life Memberships in both the CDA and ODA, is a member of the Academy of General Dentistry, Chicago Dental Society, the Toronto Crown and Bridge Study Club and is a fellow of the International College of Dentists.

Last year Gil celebrated his 50th year of marriage with his wife Helen who has always played an active role in Gil's dental practice even to this present day. Helen served as President of Alpha Omega Ladies Auxiliary. Gil and Helen have two chlidren, Brian has been in practice with Gil for 20 years and is married to Cheryl, an optician. Marlene a design consultant is married to Gerry Soloman an orthodontist in Toronto. To complete this happy family there are five grandchildren, Jay, Matthew, Jodi, Laura and Aubrey.

The Toronto Academy of Dentistry is proud to award its Honourary Life membership to Gilbert Chapnick.

Seminar Audio Cassettes

AUDIO ARCHIVES will be taping the following presentations. Tapes are available for purchase in the registration area.

Dr. Gary Carr
"The Role of the Microscope in Conventional, Retreatment and Surgical Endodontics"

Nine out of 10 dentists are using CDSPI every day.

All because dentists trust Canadian Dental Service Plans Inc. to protect their financial security.

It's no wonder. CDSPI is owned by the Canadian Dental Association and nine provincial associations. So it really is your own company.

And it's non-profit. Staffed by experts. So you get the best plans at the best price.

The Canadian Dentists' Insurance Program gives you plans designed just for dentists. And the CDA RSP boasts a strong performance record and the lowest fees you're likely to find.

Always choose CDSPI. Regular use is vital to your financial health.

KIDS ARE WORTH IT!
Giving Your Child the Gift of Inner Discipline

Barbara Coloroso

Times: 9:00 a.m. - 11:30 a.m. / 2:15 p.m. - 4:45 p.m.
Room: Theatre
Chairmen: a.m. – Dr. Gerry Solomon
p.m. – Dr. Jack Wasserman

Every parent hopes to raise responsible and self-assured youngsters, able to distinguish right from wrong. To do that, there is a distinction to be made between punishing children and disciplining them, between influencing them and controlling them. In essence, it is the difference between teaching kids *how* to think and *what* to think. That is the message delivered by internationally renowned parenting expert Barbara Coloroso.

Come and hear her basic practices and principles:

1) Kids are worth it.
2) I will not treat a child in a way I myself would not want to be treated.
3) If it works and it leaves a child's and my own dignity intact, do it.

The key to good parenting is treating children with respect; giving them a sense of positive power in their own lives; allowing them opportunitites to make decisions and take responsibility for their own actions so they can learn from their successes and mistakes.

An interesting and informative lecture. A must-see for everyone!

ENROLLMENT IS LIMITED!!
USE PRE-REGISTRATION FORM IN BOOK!

COSMETIC DENTISTRY: New Vistas for the General Practice

Times: 9:00 a.m. - 11:30 a.m. / 2:15 p.m. - 4:45 p.m.
Room: 202 ABCD
Chairmen: a.m. – Dr. Murray Wagman
p.m. – Dr. Howard Klaiman

Ross W. Nash, D.D.S.

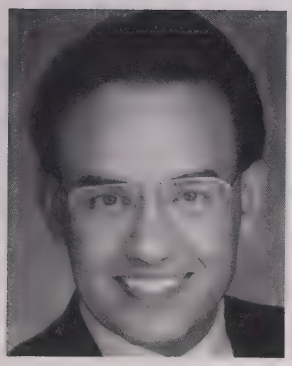
Build the esthetic segment of your dental practice, fine-tune your clinical focus, and learn how to help your patients choose a more cosmetic care. Discussion of practice philosophy and clinical technique will provide information to help with daily practice life.

Topics will include:
- Cosmetic and Esthetic Considerations
- Anterior Esthetic Restorations
- Posterior Esthetic Restorations
- Technology to Assist You
- Patient Types
- Building Your Practice

Blending clinical procedures with technology and practice development will provide an exceptional learning experience for **the entire team!**

Dr. Nash's presentation is co-sponsored by Kerr Corporation.

NUTRITION, DIET, AND DENTISTRY *TODAY!*



David Meinz, M.S., R.D.

Times: 9:00 a.m. - 11:30 a.m. / 2:15 p.m. - 4:45 p.m.
Room: 206 CD
Chairmen: Dr. Tim Milligan
Dr. Robert Pick

Come and hear nutritionist David Meinz reveal the latest about the food you and your patient eat. You'll discover how promoting the sugar bowl can actually *decrease* caries formation. You'll learn why you should go back to white bread if you're currently eating whole wheat. And you'll discover the latest on fast foods, osteoporosis, and what they don't tell you about cholesterol. An upbeat, FUN, hands-on presentation that will bring you up-to-date on the relationship between nutrition and health.

A useful and valuable presentation
for all members of the dental team!!

MICROSCOPTIC ENDODONTICS

Gary B. Carr, D.D.S.

Time: 9:00 a.m. - 11:30 a.m.
Room: 206 EF
Chairman: Dr. Shayne Lipton

Dr. Carr will be covering the rapid developments in endodontic techniques and instrumentation that have evolved around the use of the operating microscope.

Advances in conventional, retreatment and surgical endodontics will be reviewed with specific attention to sophisticated skills and innovative instrumentation.

Dr. Carr's presentation is co-sponsored by the Ontario Society of Endodontists

HOW TO MEET THE CHALLENGE OF INFECTION CONTROL

Times: 9:00 a.m. - 11:30 a.m. / 2:15 p.m. - 4:45 p.m.
Room: 205 CD
Chairmen: Dr. Stan Waese
Mollie Petryna

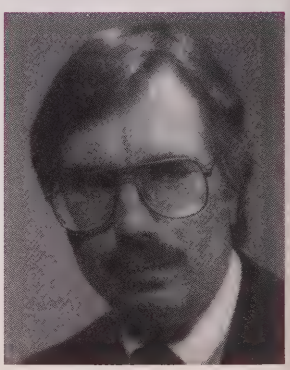
Chris H. Miller, PhD

Dr. Miller provides important information for the **entire dental team** and focuses on the microbial challenges that continue to emerge in dentistry. It provides updated training on the basics of bloodborne diseases, routes of disease spread, and modes of disease prevention. BBesides addressing any changes in infection control laws, the program also discusses breaking issues such as dental unit waterlines, hepatitis C and G, TB prevention guidelines, and emerging diseases. Step by step procedures will be given on how to perform various methods of infection control. Tips on how to save time will be offered as well as ample opportunity for questions and answers.

Dr. Miller's presentation is sponsored by Block Drug Company (Canada) Ltd.

WHAT'S OLD IS NEW: CLINICAL ISSUES IN TREATING THE OLDER ADULT

Times: 9:00 a.m. - 11:30 a.m. / 2:15 p.m. - 4:45 p.m.
Room: 201 EF
Chairmen: Dr. Jerry Weisberg
Dr. Don Stewart



Patrick M. Lloyd, D.D.S., M.S.

Today's older adult dental patients present some of the most difficult and challenging clinical situations the profession has ever faced. In an interesting and informative program, Dr. Patrick Lloyd will examine the "Unprecedented Character" of the elderly and how it impacts on the practice of dentistry. The effect of age on the presentation, assessment, and treatment of dental caries and tooth fracture will be discussed, as will be the causes of dry mouth disease and various treatment strategies. A selection of clinical and laboratory procedures will demonstrate the importance of attention to detail, the ingenious use of materials, and the refinement of technique when treating the elderly.

ESTHETIC IMPLANT RESTORATIONS

Steven Lewis, D.M.D.

Times: 9:00 a.m. - 11:30 a.m. / 2:15 p.m. - 4:45 p.m. (WORKSHOP)

Room: 203 CD

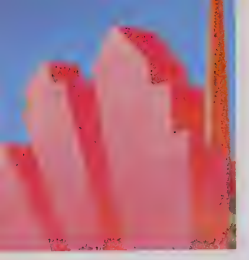
Chairman: Dr. Peter Tonisson

This exciting program reviews the restorative components and techniques useful in achieving esthetic implant restorations in the partially edentulous patient. Both multiple implant and single implant restorations will be discussed. Emphasis will also be placed on treatment planning considerations including diagnostic casts, diagnostic wax-ups, surgical templates, and the use of implant provisional restorations. The afternoon includes a laboratory hands-on session where abutment selection, abutment placement, impression techniques, and prosthesis delivery will be discussed and performed by all participants. A valuable learning experience!!

Dr. Lewis' presentation is sponsored by the American Academy of Osseointegration.

ENROLLMENT IS LIMITED FOR THE AFTERNOON WORKSHOP!!

USE PRE-REGISTRATION FORM IN BOOK!



Morning – HELP! THERE'S A MONSTER IN MY OFFICE (or – How to Treat the Preschooler)

Time: 9:00 a.m. - 11:30 a.m. / 2:15 p.m. - 4:45 p.m.
Room: 203 AB
Chairmen: Dr. Peter Markle
Dr. Ed Philips

David L. Rothman, D.D.S.

We are in the midst of a baby boom! There are an enormous number of children who will require care in the very near future. This presentation will review the importance of the initial oral exam which should take place around the child's first birthday. Myths regarding children and oral health – teething, space predictions, diagnosis and treatment of caries – will be dissected and dispelled.

- Review of practical behaviour techniques
- Prevention of dental and oral disease will be addressed
- Surprising information on nutrition, fluorides and oral hygiene will be presented.

Afternoon – THE MANY FACES OF PEDIATRIC DENTISTRY: Practical Treatment Approaches

Treating children requires more than just applying the techniques and skills that are used on adults in smaller amounts. Because of unique physical and physiologic factors that govern children's growth and development, new paradigms and treatmnet options must be developed to safely and effectively provide care. Topics to be addressed in this presentation are:

- Local anaesthesia
- Pulp Therapy
- Practical and cosmetic anterior and posterior restorative techniques with emphasis on new materials.
- Review of the ten most common pediatric dental emergencies how to diagnose them, how to treat them and especially, how to avoid them!

PERIODONTICS TO ENHANCE RESTORATIVE DENTISTRY

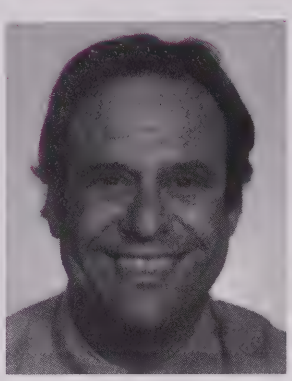
Donald M. Keene, D.D.S.

Times: 9:00 a.m. - 11:30 a.m. / 2:15 p.m. - 4:45 p.m.
Room: 206 AB
Chairmen: Dr. Godfrey Beber
Dr. Dave Hanmer

An emphasis on definitive periodontal therapy and demonstration of how it will significantly enhance your restorative dentistry is the focus of this interesting presentation. Many diagnostic and therapeutic techniques will be discussed which also apply to restorative dentistry and its relationship to periodontal health. Cosmetic concerns will also be addressed and will include the diagnosis and repair of mucogingival defects with emphasis on gingival grafting procedures designed to cover exposed root surfaces and/or to augment the edentulous ridge.

THE DENTAL INTERNET WORKSHOP

Time: 4 sessions –
see Registration Form
Room: 201 AB
Chairmen: Dr. Flavio Turchet
Dr. Sheryl Lipton
Dr. Ronald Traub
Dr. Larry Sirota



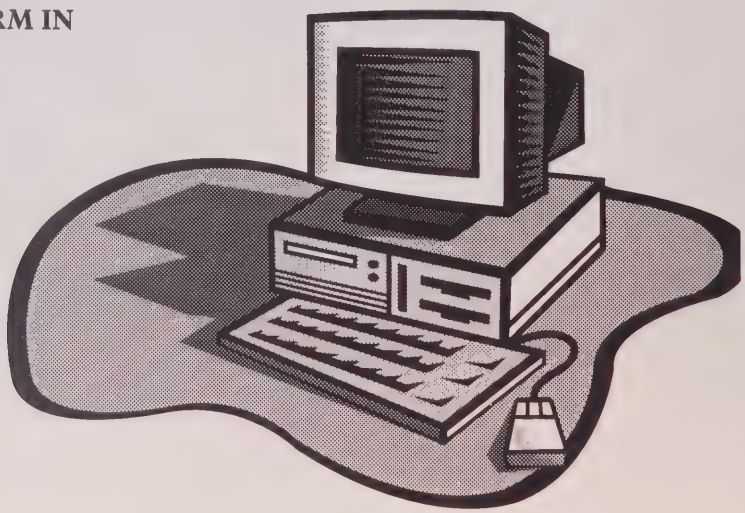
Bruce Rubin, D.M.D.

Denise M. Romberg

This hands-on look at the Internet is designed to demonstrate how to send and receive e-mail, subscribe to dental discussion groups and learn how to "surf" the World Wide Web. Find out about homepages, file transfer protocol and use Netscape to bring text, pictures, radiographs and even sounds to the desktop. Participants will also learn about what is needed to get onto the Internet including necessary hardware and software.

This workshop is of interest to
the entire dental team!

ENROLLMENT IS LIMITED!!!
USE PREREGISTRATION FORM IN BOOK!



PROTECTING YOUR FINANCIAL FUTURE (Maybe the Most Important Seminar You'll Ever Attend!)

Ian Wexler, D.D.S.

Time: 9:00 a.m. - 11:30 a.m.
Room: 201 CD
Chairman: Dr. Gordon Organ

Dr. Ian Wexler, a 36 year old disabled dentist and one of Canada's leading disability experts, will reveal "how to avoid your worst nightmare". He will discuss four key strategies on how to protect your two greatest assets, you *and* your Practice, in the event of a disabling illness or injury.

ORAL SEDATION: Safe, Effective, Useful and Applicable

J. Mel Hawkins, D.D.S., B.Sc.D. (AN) F.A.D.S.A.

Time: 9:00 a.m. - 11:30 a.m.
Room: 205 AB
Chairman: Dr. Sam Strauss

Oral sedation is perhaps the most underestimated patient management modality. A knowledge of pharmacology is mandatory, but when and how to apply it is the key to success. This presentation will discuss current medications and techniques and how to incorporate them into your practice, safely and with maximal staff and patient acceptance.

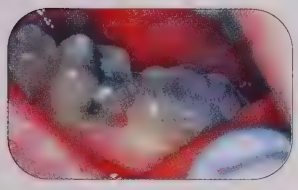
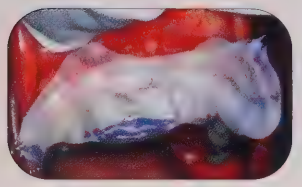
TransBite Occlusal Matrix



Transparent Bite Registration –
90 Second Set

6-Unit Veneers – TransBite Anterior
Matrix For Temporaries



Class II –
TransBite Occlusal Matrix

Class III –
Cuspal Matrix

Show-off your TransBite design here

This year, the look is see-through and the fit is flawless.

TransBite. It's new. It's transparent. It's all the rage in bite registration materials. And, it's from SciCan.

Use it to create custom matrices of uncanny precision. TransBite lets you copy the original anatomy of your patient's tooth, right down to the most intimate detail.

And because it's transparent, you can light cure through it. Fabricate fabulous chairside veneers, prepare perfect composite restorations. And no alterations.

With TransBite, you get magnificent results. Everytime. In fact, we think your TransBite Custom Matrix™ cases will turn out so well, we'd like you to send them in for display in our next 'gallery of see through fashions'.

Now, the way to the perfect fit is perfectly clear.

"Auto insurance is changing, are you getting the best rate?"

A new system for setting car insurance premiums could reward drivers of cars that are less expensive to fix after accidents and less attractive to car thieves. But at what cost? As the system is being implemented at different times by different insurers, consumers could experience a wide variance in insurance rates.

What is Clear?

Until now, insurance premiums have been based mainly on your personal driving record and claims history. Under the new Canadian Loss Experience Automobile Rating (CLEAR), many insurance companies are adjusting premiums based on the overall claims costs for each car model as well. CLEAR was developed by the Vehicle Information Centre of Canada (VICC), the industry's central collection agency for vehicle data.

"You could have two different cars, both costing $20,000, but one gets stolen 10 times more. In the past, they could have had the same premiums. CLEAR helps place premiums where the risk really is," says VICC vice-president Roch Lacroix.

Switch Advice

The Insurance Bureau of Canada predicts all insurance companies will adapt the CLEAR system over the next year or two, but what's unclear is when each insurer will implement it. So, before you buy your new or used car, check with your insurance broker to be certain you're getting the best rates. Call **Pottruff & Smith Insurance** at 1-800-263-2369.

ALL CARS ARE NOT CREATED EQUAL

The Canadian Auto Insurance Industry is changing to a new system called:

CLEAR

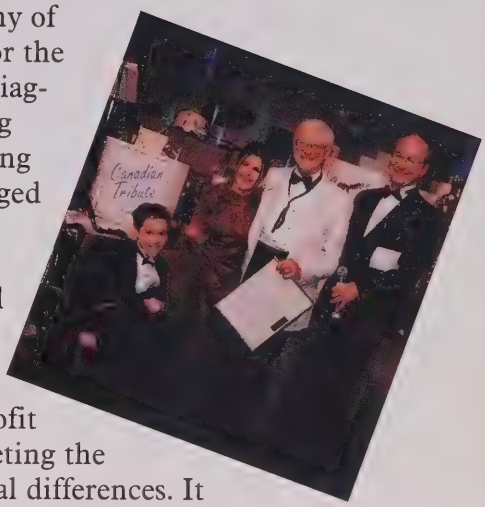
Caring & Sharing We've made a difference!

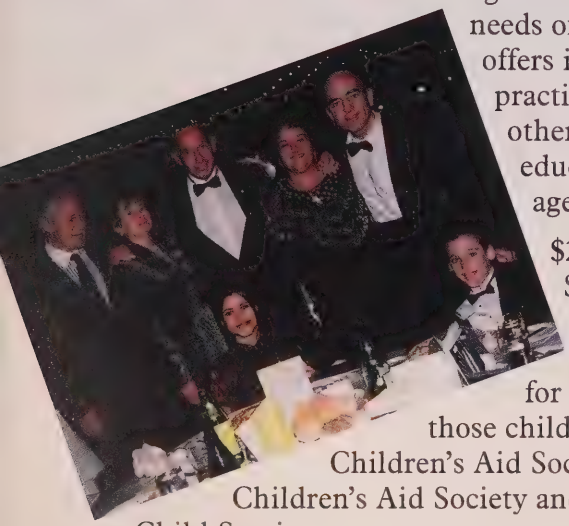
Did you know that since November 1995, the Toronto Academy of Dentistry, with the support of the dental profession and dental industry donated:

$60,000 from the "Give More Hope to a Child" gala and **$11,000** from the 1996 Toronto Dental Golf Classic to The Hugh MacMillan Children's Foundation (which has recently amalgamated with Bloorview Children's Hospital to become The Bloorview MacMillan Children's Centre.

Overall, since 1990 The Academy of Dentistry has raised **$245,000** for the Centre which has purchased a diagnostic ultrasound machine being used to treat "swallow and feeding disorders" in physically challenged children and young adults.
As well, through its Toronto Community Professional Dental Association, this year the Academy donated:



$10,000 to AboutFace, a non-profit organization dedicated to meeting the needs of those who have facial differences. It offers information, support (medical and dental), practical advice and the opportunity to be in touch with others who share similar concerns. They provide educational pamphlets and school programs to encourage positive attitudes.



$20,000 to The Children's Aid Society Foundation to be used to establish a Toronto Academy of Dentistry Fund for Children. Recipients will be those children serviced by The Children's Aid Society, The Catholic Children's Aid Society and The Jewish Family and Child Services.

Are You Protected?

As a professional, you are faced with the possibility of becoming involved in legal disputes that may threaten the professional licence you've worked so hard to obtain.

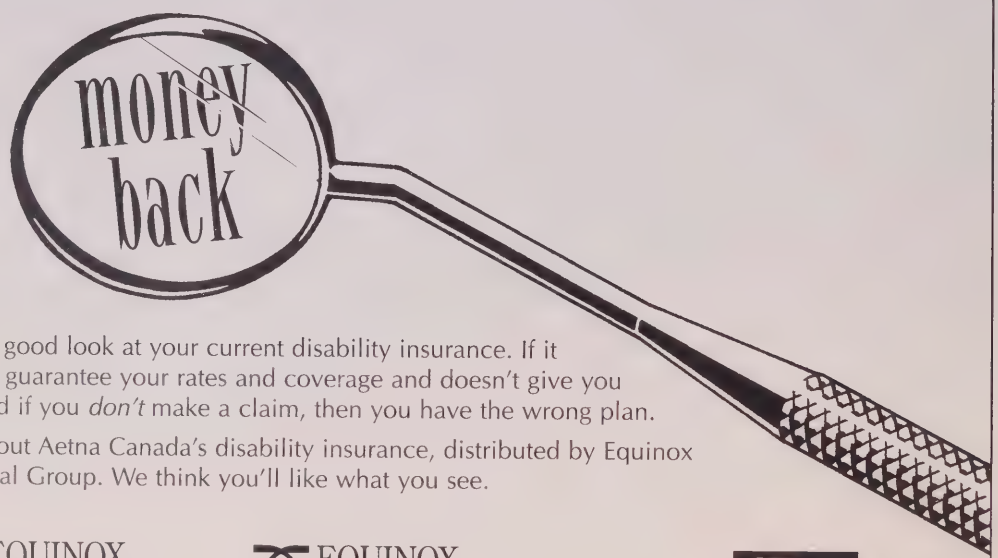
When the time comes that you find yourself facing legal action, the last thing you need is the worry of paying for experienced legal counsel.

The Canadian Dental Protective Association (CDPA) is a federally incorporated non-profit organization run by dentists for dentists. CDPA is committed to caring for the risk management needs of its members and is pleased to sponsor an excellent legal benefits insurance plan for your protection.

CDPA offers risk management courses, provides risk management publications and arranges a legal advisory line to help guide members with any legal concerns.

For more information contact:

The Canadian Dental Protective Association
2175 Sheppard Ave. E., Suite 310, North York, Ontario M2J 1W8
Phone Local: (416) 491-5932 • Toll Free: 1-800-876-2372 • Fax (416) 491-1670



Take a good look at your current disability insurance. If it doesn't guarantee your rates and coverage and doesn't give you a refund if you *don't* make a claim, then you have the wrong plan.

Check out Aetna Canada's disability insurance, distributed by Equinox Financial Group. We think you'll like what you see.

"SOFT TISSUE MANAGEMENT/ NON-SURGICAL PERIODONTAL THERAPY"

An Important Day for the Entire Dental Team

About the Program

- **Discovery** of periodontal disease and informing long term patients that they need treatment
- Step by step approach to periodontal **diagnosis**
- **Classification** of case types and deciding which patients need surgery and which do not.
- **Medical aspects** as related to periodontal treatment
- Effective **home care** techniques patients will practice
- **Oral sedation** and **local anaesthesia** in periodontal therapy
- **Step by step technique** for scaling, root planing and irrigation
- Which **antibiotics** to use and when
- Why and when of **recall appointments**
- Are **disease activity tests** of any practice value
- How to maintain **implants**
- **Intrapocket Drug Delivery Systems**
- **Reasonable fees** for periodontal procedures
- How to **write records correctly** so you reduce malpractice risks
- Other information **you and your hygienist** can put into practice the next day.

Provide standard of care and increase production.

Other Features

- **Highly practical**
- Approved for **6 RCDS Credits and 6 AGD Credits**
- New practice concepts in periodontal therapy **for general practice**
- **No theories or impractical discussions**
- Designed **especially for GENERAL DENTISTS ... HYGIENISTS AND OFFICE STAFF**
- ***This course or the speaker receive no support from any commercial organization and does not promote any commercial products or sell any tapes, books, instruments, forms or other materials.***

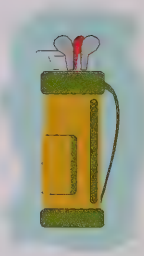
Dr. Bhaskar has given more than eight thousand hours of lectures to dental societies and Dental Schools in the United States and foreign countries. Based on a poll conducted by the Dentist Magazine, he was selected as **one of the top five speakers in the country.** Participants were asked to select the dental profession's most dynamic, articulate and informative speakers.

Presently, Dr. Bhaskar is in private practice, limited to periodontics, in Monterey and Salinas, California.

USE THE FLYER ENCLOSED WITH THIS WINTER CLINIC BOOK TO TAKE ADVANTAGE OF EARLY REGISTRATION RATES.

We Golfed "FORE" The Kids

The Toronto Dental Golf Classic was held on Friday, June 7th at Glen Eagle Golf Club. Through the support of the dentists and dental industry **$11,000** was raised for The Bloorview MacMillan Children's Centre.



It was a great day and the committee looks forward to a sell-out at the **1997 TORONTO DENTAL GOLF CLASSIC – WEDNESDAY, JUNE 4th at ANGUS GLEN GOLF CLUB**. This is one of the top-ranked clubs in Ontario and will provide an excellent venue for the tournament.

Mediations Report

The mediations process which is available to our members is of great benefit when a dispute arises between a dentist and patient. It is possible for anyone to have a complaint lodged against them and statistics have shown that one out of every ten dentists are in this situation at some time during their years of practice.

There are a number of things that we as health care professionals can do to effectively minimize our exposure to patient complaints. A good personal relationship with patients makes communication easier, whereas a poor relationship can cause misunderstanding. This personal relationship will develop mutual trust between the dentist and the patient. With this kind of relationship there will be fewer opportunities for misunderstandings on both sides and should a problem develop, it can be solved before it becomes unmanageable. We must share with our patients, our thoughts for the treatment we are to perform, the cost involved and then a detailed explanation of the proposed treatment in a logical order so that the patient fully understands the treatment plan.

The Mediations Committees were responsible for investigating approximately seventy five written complaints in the past year and I am pleased to report that most of these complaints were resolved satisfactorily. Our staff, Raisyl Wagman and Pat McCance have averted many written complaints by their ability of dealing with patient inquiries over the telephone.

On behalf of the Toronto Academy of Dentistry I would like to thank the Mediations teams for their outstanding service to our members.

Gilbert Chapnick, D.D.S.
Mediations Consultant to the Toronto Academy of Dentistry

If you have no interest in...

1. Knowing the unit price of the products that you purchase one year ahead of time.
2. Reducing your inventory.
3. Improving your cash flow.
4. Getting a report showing your monthly purchases and your year-to-date purchases.
5. Getting the best possible price without having to buy in bulk.
6. Having your inventory tagged for better control.
7. Avoiding outdated inventory.

... Then don't ask your Patterson Representative about our new

R O I Purchase Program.

Return On Investment
